Description:

Here is the mesmerizing sequel to INTO THE LAND OF THE UNICORNS, Book I of Bruce Coville's popular Unicorn Chronicles series. The Wanderer is weary, was the message that Cara brought to Luster, and what quickly became her mission. But it is more complicated than simply bringing her grandmother, the Wanderer, back to Luster: the gates between Earth and Luster are only open at certain times and only found in particular locations. And haunting nightmares keep slowing Cara down: nightmares of Beloved, enemy of the unicorns; of the father whose legacy

she turned against; and of the mother who deserted her. In order for Cara to complete her mission and accept her destiny it will take not only trust and belief, but the love of a surprising ally as well.

I bought book 1 and this (book 2), together and now I know I did the right thing. Being in the middle of the book though, I bought number 3 as well! What can I say? Such a beautiful writing! This is an exciting sequel, with more action than the first book. I didn't just love the book, I actually lived it! And that's what makes the book so amazing. I was sure at some point, that I saw Lightfoot pass outside my window!! So glad by the way, that he is in this book too! And Cara is such a lovable, deep character. The love for her Grandmother and the special bond she shares with her friends, is just awesome. Well, excellent job Mr Conville! Can't wait to start reading book 3.
